Crafty Sport Summer School

As Mike Singletary (Chicago Bears) once said, "do you know what my favourite part of the game is? It's the opportunity to play."

At Crafty Sport, we totally endorse this sentiment and encourage participation, fun and sense of achievement by all. As an experienced teacher for over 20 years, I value the sheer delight children gain from practical activities when spontaneous self discipline emerges.

The Crafty Sport programme is designed to introduce children to a variety of sporting activities. They experience creativity in a friendly, relaxed and safe environment whilst enjoying the summer air and outdoor spaces throughout the day. The day's events consist of sport in the morning and after lunch, craft and creativity are the focal point. Each pupil will be able to take their creations home at the end of each day. The day concludes with a mini tournament or party game.
